From: Wm. Harold Martin
Subject: Sample Identification

Attached is a comment from Mr. Kenneth Irwin relating to the analyses of two samples collected on the dates indicated and transported to the Industrial Hygiene laboratory for analyses. These samples are identified as follows: (1) Spring water = collected from a spring owned by Miss Elsie Croft, Nolensville Road. (2) Sample collected from the industrial waste pond of Radnor Yards.

DATE: June 13, 1968

TO: Mr. Harold Martin

FROM: Kenneth T. Irwin

SUBJECT: Lab Results

FROM	TO	DATE
KTT	DPR	6-14
	CPM	6/14
	CBT	6/14
	WHM	6/17
	DAM	

Two samples received from Mr. William Harold Martin:

	LAB NO.	DATE RECEIVED
(1) Spring Water (ELSIE CROFT)	68-823	5-22-68
(2) Waste (NOLENSVILLE ROAD)	68-824	6-6-68

It has been found that the primary composition of the two samples is the same, i.e., an extraction from the water and the oily portion of the waste are essentially the same in composition.
